

# S-5!®

The Right Way!

## Introducing the TopFix CorruBracket-AU™

TopFix CorruBracket-AU™ is designed specifically for the Australian market and is compatible with Australian corrugated roofing profiles. Designed to prevent penetration from occurring in the profile valley, TopFix CorruBracket-AU is fixed to the crown of the corrugation, leaving the valleys free of holes, further protecting against leaks!

TopFix CorruBracket-AU comes with a factory-applied EPDM rubber gasket seal already on the base, and the S-5!® patented reservoir conceals the EPDM from UV exposure, preventing drying and cracks.

Installation is simple, TopFix CorruBracket-AU is mounted directly onto the crown of the roof sheet, straddling the valley. No surface preparation is necessary; simply wipe away excess grease and dirt, align, and apply. Secure directly into the crown of the roof profile by driving the appropriate roof Tek-screws into the six pre-punched holes, or pre-drilling the proper sized hole through the six pre-punched holes and riveting with structural rivets.

**TOPFIX CORRUBRACKET-AU IS EXTREMELY VERSATILE. IT CAN BE USED FOR ALMOST ANY ATTACHMENT NEED ON CORRUGATED METAL ROOFING PROVIDING A FLEXIBLE AND ECONOMICAL MOUNTING SOLUTION.**

### CORRUGATED PROFILED TOPFIX CORRUBRACKET-AU

## SIMPLE INSTALLATION

TopFix CorruBracket-AU is mounted directly onto the crown of the roof sheet, straddling the valley.

- 1 No surface preparation is necessary; simply wipe away excess grease and dirt.
- 2 Align and apply.
- 3 Secure directly into the crown of the roof profile by driving the appropriate roof Tek-screws into the six pre-punched holes, or pre-drilling the proper sized hole through the six pre-punched holes and riveting with structural rivets.

The TopFix CorruBracket can be used in conjunction with the S-5-PV Kit to provide a simple, cost effective and rail-free solar PV installation.

*TopFix CorruBracket-AU fitted with S-5-PV Kit (purchased separately).*

# PRODUCT REFERENCE GUIDE

1) Identify your roof profile. 2) Select the appropriate clamp from the table below

\*Choice of clamp (clamp sold separately).

Roof Manufacturer	Roof Product	Generic Roof Profile	S-5 Clamp Options		PV Kit Compatible	
BlueScope Lysaght	Klip-Lok 406		S-5-K	S-5-K Mini	✓	
BlueScope Lysaght	Klip-Lok 700		S-5-K700	+1.5mm gasket	✓	
BlueScope Lysaght	Klip-Lok 700HS		S-5-K700	+1.5mm gasket	✓	
Fielders	WideKlip		S-5-K700	+3.0mm gasket	✓	
Fielders	KingKlip		S-5-K700	+3.0mm gasket	✓	
Fielders	HiKlip		S-5-K700	+3.0mm gasket	✓	
Stramit	Speed Deck Ultra		S-5-K700	+3.0mm gasket	✓	
Stratco	Topdeck700		S-5-K700	+3.0mm gasket	✓	
Metroll	Metlok 700		S-5-K700	+3.0mm gasket	✓	
Metroll	Metlok 500		S-5-K700	+3.0mm gasket	✓	
BlueScope Lysaght	Longline 305			S-5-U	S-5-U Mini	✓
VM Zinc	Double Lock Standing Seam (DLSS)			S-5-U	S-5-U Mini	✓
Rheinzinc	Double Standing Seam	S-5-U		S-5-U Mini	✓	
Rheinzinc	Standing Seam	S-5-U		S-5-U Mini	✓	
EuroClad	Copper Standing Seam		S-5-B	S-5-B Mini	✓	
	Copper Angled Standing Seam					
Rheinzinc	Copper Double Standing Seam					

As part of the quality offering from RPS, we recommend the use of our gasket and fastener accessories for the S-5-K, S-K Mini and S-5-K700. The use of a gasket increases the versatility of fit across the large range of Australian roofing profiles. The gasket also offers increased galvanic separation and can provide increased resistance to the effects of thermal cycling due to repeated hot and cold temperature fluctuations. The longer stainless steel fasteners and spring washers allow for an even easier clamp assembly and installation.

Our gasket and fastener accessories are the perfect complement to S-5! Clamps. For more information regarding clamp selection and available accessories contact **RPS** on **1300 695 404** or visit **www.rps.au.com**
